# **DANIELI** CENTRO COMBUSTION

# ENERGY SAVING

# 2015 – Ferriere Nord (Italy) – Walking Hearth Furnace

### PROJECT

150 t/h natural gas fired Walking Hearth Furnace, 160x160x12000mm billets

- Installation of additional charging table to allow the recovery of warm billets from storage area
- Upgrade of automation software

## SERVICE TECHNICAL DATA

Equipment revamping – Low Investment Cost and High Benefits

#### HIGHLIGHTS

- Reduced gas consumption through the processing of warm billets
  Achievement of constant high rate furnace throughput by
- integration of discontinued supply of billets from CCM — 5 months from order signature to production on turn-key basis

#### ACTIVITIES

Mechanics, electrics and automation

Danieli Centro Combustion SpA / Via Galileo Galilei, 40 20092 Cinisello Balsamo (MI) Italy / Phone: 39.02.26245211 / Fax +39.02.2624540 / info.dcc@danieli.it / www.danielicentrocombustion.it This Document Contains Proprietary Information Of Danieli Centro Combustion SpA Not Disclosable, Not Reproducible. # **DANIELI** CENTRO COMBUSTION

# Proven Track records

## SERVICE TECHNICAL DATA

A Step Ahead in CapEx and OpEx, through Tailored Solutions

BENEFITS	
Performance improvement	
Revamping and relocation	
Replacement of obsolete equipment	
Fuel conversion and/or combustion system enhancement	
Capacity upgrade	
Scale reduction	
Energy saving	
Product enhancement	
Safety update and Regulation compliance	
Environmental responsibility	

#### SCORE

Total revampings carried out on reheating & heat treatment furnaces for flat, long and pipe products

All Information refers up to 2015

### **TECHNOLOGICAL PACKAGES**

Ultra-low NOx <sup>®</sup> flameless burners	Patented burners operating in both staged combustion and in flameless mode to guarantee reductions in NOx emissions
TFB-REK <sup>®</sup>	Patented TFB-REK $^{\textcircled{R}}$ sself-recuperative burners providing internal high efficiency air preheating without a central heat recovery unit
2P-type RTS + TFB-REK <sup>®</sup>	2P-type Radiant Tube Shape combined with self-recuperative $TFB\text{-}REK^{\textcircled{R}}$ burners guarantees state-of-the-art strip temperature uniformity
Eco-wet rolls <sup>®</sup>	Patented rolls for tunnel furnaces minimizing cooling water thermal exchange to improve energy efficiency
Multi-variable Process Control	A plug-in hardware/software tool noteworthy saves fuel and reduces scale by predicting control loop behaviour
Hybrid reheating	Stocks preheated inside the furnace achieve the required rolling temperature passing through electrical inductors, to enhance efficiency and to reduce scale considerably
Pre-fabricated solutions	Solutions from simple skid to complete furnace pre-assembly to minimise erection/outage time

e - SERVICES		
e-Spare	Online spare parts services	
Teleservice	Worldwide remote assistance and troubleshooting	
e-Maintenance	From periodical technical advisoring up to complete predictive maintenance solutions	
e-Training	Customized training services available in remote video connection in addition to on-the-job training or training at Danieli facilities	
Asset Management System	Umbrella services covering improvements on production, operations, maintenance and revampings
